The next ARC meeting is scheduled for Saturday, July 28, 9:00am at the Bridge House. The ARC committee is actively working to assure our community remains beautiful and consistent with our architectural esthetics. Many thanks to the hard work of this committee!

UPDATE

June is 2013 budget planning time at The Capes

The budget process continues into July. Get involved early with any comments or suggestions you have for the 2013 budget.

The Bridge House now has WiFi!!

Wireless internet access has been installed at the Bridge House. We realize that many homeowners may only spend a few weekends a year at The Capes which may not justify the cost of internet at your own house. As an amenity to owners and their guests, you are welcome to use the Bridge House for access the internet. For security reasons, the Bridge House is locked when not in use. If you would like to get into the Bridge House for internet access, our manager Tim Moore, has a key with a tag on it with instructions for how to log on through the router. The key **MUST** be returned to the office when people leave. Please be courteous to your fellow homeowners by leaving the Bridge House in the (hopefully clean!) condition that you found it. Enjoy this new feature of the Bridge House!

Emergency Response Information

The Emergency Response Committee gave an excellent presentation on how we, as homeowners on the coast, can best be prepared for an earthquake and possible resulting tsunami. Please take a few minutes to review these documents, which can be **found on the Documents page**, and equip your

homes with the necessary items to be prepared. Thanks to volunteers Anne Bethell, Wanda Partin and our Manager, Tim Moore, who have been working hard learning and sharing this information on our behalf.
