

Emergency Preparedness Questionnaire

The purpose of this form is to aid The Capes Emergency Readiness Committee as they attempt to prepare The Capes for potential catastrophic events. Having a list of available skills and/or supplies to draw from could save lives in the event that The Capes should become isolated for a long period of time. It is currently estimated that should we experience an earthquake generated by a Cascadia Subduction Zone rupture (9.0 magnitude or greater), it could take as long as 2-3 months before rescue personnel could reach The Capes to begin the evacuation process. **During those 2-3 months we will need to rely on each other.**

Name: _____ Capes Address: _____

How often are you at The Capes? (Full time, every other weekend, June-October only, etc. Be as specific as possible.)

Does your home at The Capes have a propane tank? Circle one: YES NO

If yes, where is it located? _____

Circle any skills or services that you are able to contribute to the community in the event of a disaster:

- | | |
|--|--|
| 1. Doctor, Nurse, Physician's Assistant | 7. Child care or elder care |
| 2. First aid or CPR | 8. HAM radio operator |
| 3. Community Emergency Response Training (CERT) or NERP | 9. Firefighter or EMT |
| 4. Search and rescue | 10. Handyman |
| 5. Police or auxiliary | 11. Coordinating and organizational skills |
| 6. Architect, Engineer, Contractor, Carpenter, Electrician—to assess the safety of buildings/homes | 12. Other: _____ |

What equipment or supplies do you have at The Capes which may be utilized for the community's survival in the event of a catastrophic disaster? Please circle all that apply:

- | | |
|-------------------------------------|--|
| 1. First aid and medical supplies | 10. CB, walkie-talkie |
| 2. Walkers, wheel chairs, crutches | 11. NOAA weather radio, S.A.M.E. service |
| 3. Tents, cots, spare bedding | 12. Long ladder |
